

EROS

STUDIO63

The Eros night group, consisting of a chest of drawers and bedside table, is characterized by the sophisticated dialogue between the different materials that compose it: metal, marble, wood. The bronze painted metal oval diameter structure supports a precious marble support surface through a sophisticated recess inside which it is inserted.

The container in black-stained oak is suspended between the top and the floor, making it light and ethereal.

TYPE / NIGHT COMPLEMENTS

DESIGNER

STUDIO63

Studio 63 is an international architectural and design studio, working in the retail and hospitality branches. It also deals with product design, art-direction, art and design consulting for furnishing and fashion companies.

Situated in the city centre of Florence, Studio63 was officially born in 1998 and inaugurated the New York office in 2003; in 2004 it opened an office in Hong Kong and in Shanghai in 2007.

Studio63 works in more than 25 countries all over the world, taking care of any aspect of its projects, from the concept development to the project management, paying particular attention to details, shape and style.

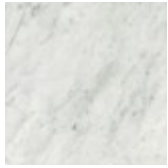

Currently the headquarters in Florence boasts operational partnerships in Dubai, Shanghai and Kuwait City.

The international celebrity which was reached in 2000, with the winning of the competition for the Miss Sixty concept, led the studio work in the retail branch with different and prestigious brands in the retail and hospitality branches, from the concept development to the project management.
